

# HVACPro Home Comfort HVAC Replacement

**Produced in Any HVAC Equipment Brand**

## Best Heating & Air

123 Anywhere Street

City, ST 12345

*The area's leading comfort experts for all your Heating and Air Conditioning needs!*

# Best Heating & Air

## Mission Statement

- **Our Commitment:** We are committed to providing the highest quality and performance in all aspects of the equipment replacement industry, utilizing our core strengths to ensure the continued success of our employees and our customers.
- **Core Services:** Design, fabrication, installation, and service of heating, air conditioning, indoor air quality, and ventilation systems, as well as electrical, temperature, and humidity controls.
- **Core Strengths:** Experienced leadership, excellence, trustworthiness, loyalty, and pride in our reputation for quality workmanship and teamwork, our multi-trade capabilities, and our knowledge of and commitment to innovativeness.
- **Success for Employees:** Provide fair compensation, security, trust, recognition, and a good working atmosphere.
- **Success for Customers:** Provide quality, competitive pricing, trust, partnership, and our ability to meet their unique requirements.

# Best Heating & Air

## Who we are:

- ▶ A premiere residential-commercial service company.
- ▶ We have consistently grown each year due to our competitive programs and services.
- ▶ Our company has continued to invest in state-of-the-art technology that allows us to deliver the highest level of service with the lowest possible cost.
- ▶ Our written training and employee development programs ensure the delivery of safe, reliable service in and around your home.
- ▶ We have a written drug-free hiring policy to protect our customers and their property.

## What makes us different:

- ▶ We offer the industry's best Install-Right® guarantees, warranties and assurances.
- ▶ Our field management and equipment installation procedures enable us to take care of everything and assume responsibility for everything.
- ▶ We are an unbiased independent contractor, not a manufacturer-sponsored dealer. We minimize all personal risk from doing business with us through our delivery systems and our liability coverage.
- ▶ We **guard** both your time and your equipment replacement investment money.

## The Home Comfort Certified System®

### 7-Step Approach

1. Conduct the Home Use and Liability Survey to ensure your personal, technical and timing objectives are met.
2. Conduct Manual-J load gain/loss measurement to right-size the capacity of replacement equipment and the duct distribution system installation.
3. Analyze load data gathered to ensure proper equipment sizing and inclusion of any accessories to meet your special requirements.
4. Sit down with you to explore your installation and purchase options.
5. Back up all of our work with unsurpassed written Install-Right® guarantees, warranties and assurances.
6. Organize, educate and schedule installation personnel and manage your installation requirements.
7. Precision tune and implement a warranty management system and a 4-hour or less, 24/7 emergency response.

# Best Heating & Air

## Our Installation's Prevent These Catastrophic Situations

- **90% of all installations have problems resulting in unnecessary energy inefficiencies due to:**
  - Too large or too small equipment sizing
  - Improper match between condenser and evaporator
  - Improper duct sizing or distribution
  - Improper duct insulation or sealing
  - Leaking or disconnected ductwork or diffusers
  - Improper system balancing
  - Improper system charging and calibration
- **40% of all installations fail to meet airflow requirements resulting in poor indoor comfort due to:**
  - Improperly sized equipment
  - Improper duct distribution design
  - Improper diffuser type or location
  - Leaking or disconnected ducts and diffusers
  - Improper system balancing
- **50% of all installations are not charged properly resulting in up to 10% higher operating costs due to:**
  - Improper start-up, test and installation verification per manufacturer's specifications and industry best practices
  - Untrained installation personnel
  - Poor contractor installation methods

*Source: Studies conducted by North Carolina Alternative Energy Corporation, Texas A&M University, Louisiana State University and BSI client customer surveys*

**With our Home Comfort Certified System® we guarantee that your equipment will be in the top 10% of all installations.**

# Best Heating & Air

## Quality Installations by Design

### Pre-installation:

1. Our proven Home Use & Livability Survey data gathering techniques enable us to provide our customers with unconditional performance guarantees.
2. Our computerized Manual-J home load modeling guarantees that heating, cooling and comfort capacities will be met.
3. Our equipment/system selection process guarantees that we meet both your personal requirements and home aesthetics requirements.
4. We select the most appropriate installation implementation process that guarantees our customers the lowest possible installation costs.
6. We specialize in working in occupied spaces and know the challenges; therefore we keep our work areas clean and actively plan our work methods to minimize any possible disruption.
7. We verify and test all completed work to guarantee that everything was installed per specifications and according to best industry standards.
8. Our in-depth homeowner training guarantees that you will maximize your investment.

### Installation:

5. We will assign an installation team that will take care of everything, manage everything, and be totally responsible for everything.

### Post-installation:

9. Our installations are performed per industry best practice, which has continuously proven to reduce emergency or trouble calls. However, if an emergency does occur, you will receive our highest priority response. We respond to emergency trouble calls, even during peak periods, within four (4) hours or less of your call.

# SPLIT AIR CONDITIONING ADD-ON

## 2.5 TON

### System Benefits

- ☑ Helps save up to 29% on your cooling energy bills\*
- ☑ Provides more efficient and reliable cooling
- ☑ Rust-resistant protection from the elements
- ☑ Reduces greenhouse gas emissions\*\*
- ☑ 10-Year parts, 2-Year labor

**\$ Intentionally Blank** C031-GD25-0550  
COMFORT™ 14 24SCA4 UP TO 13.4 SEER2 11.5 EER2 AC UNIT/ CVPVA COIL

### System Benefits

- ☑ Helps save up to 40% on your cooling energy bills\*
- ☑ Provides more efficient and reliable cooling
- ☑ Rust-resistant protection from the elements
- ☑ Reduces greenhouse gas emissions\*\*
- ☑ 10-Year parts, 2-Year labor

**\$ Intentionally Blank** C031-BR25-0550  
PERFORMANCE™ 16 24SPA6 UP TO 16 SEER2 13.5 EER2 AC UNIT/ CVPVA COIL

### Base Installation Price Includes

- ☑ New equipment mounting pad
- ☑ Set and level unit
- ☑ New condensate drain line
- ☑ New electrical disconnect & power wire to equipment
- ☑ New transitions to existing supply & return
- ☑ New refrigerant line-set up to 30ft
- ☑ Equipment start-up and safety inspection

\*Potential savings based on existing 8 SEER unit and may vary depending on your lifestyle, system settings, equipment maintenance, local climate, home construction and installation of equipment and duct system.  
\*\*If removing an R22 system.

NOTE: Warranties may require registration of equipment. Warranty for thermostats may differ.

**Client Customizable**

## Base Installation Price Includes

- ☑ New equipment mounting pad
- ☑ Set and level unit
- ☑ New condensate drain line
- ☑ New electrical disconnect & power wire to equipment
- ☑ New PVC venting (for 90%+ furnaces) up to 10ft
- ☑ New shut-off and connection to gas line
- ☑ New transitions to existing supply & return plenums
- ☑ New refrigerant line-set up to 30ft
- ☑ Equipment start-up and safety inspection

\*Potential savings based on existing 8 SEER/50% AFUE units and may vary depending on your lifestyle, system settings, equipment maintenance, local climate, home construction and installation of equipment and duct system.  
 \*\*If removing an R22 system.

NOTE: Warranties may require registration of equipment. Warranty for thermostats may differ.

## Enhancements, Accessories & IAQ Essentials

| ACCESSORY   | PURPOSE  | INVESTMENT             |
|---|--|------------------------|
| <br><b>Infinity® Touch Thermostat</b>          | Carrier's Infinity® Touch Control is the key to unlocking your comfort potential. As part of a complete Infinity, communicating system, this one control can manage temperatures, humidity, ventilation, airflow, indoor air quality and up to eight zones. If your system includes a heat pump and a furnace, its advanced features can orchestrate Hybrid Heat® system performance. (For other thermostat options, see the Investment Option Worksheet.)   | \$ Intentionally Blank |
| <br><b>Ecobee 6 Premium Thermostat</b>         | The Ecobee 6 is enabled for Amazon, Apple and Google smart assistants for complete voice control. The included room sensor helps manage hot or cold spots. It intuitively understands when to turn on your heating or cooling equipment based on your home's unique occupancy profile and the weather outside. Plus it lets you monitor and control the temperature in your home anytime, anywhere, on your smartphone, tablet, or computer over your internet connection.                                     | \$ Intentionally Blank |
| <br><b>Infinity® Whole-House Air Purifier</b>  | Carrier's DGAPA Infinity® Germicidal Air Purifier is more than a MERV 15 air filter. Its Captures and Kills® technology is unforgiving when it comes to airborne pollutants including coronavirus, bacteria, and mold. Grizzly? Yes — if you're a mold spore. This whole-house air cleaner also re-purifies circulated indoor air as many as 8 times a hour. Those poor pathogens don't stand a chance.  | \$ Intentionally Blank |
| <br><b>High-Efficiency Media Air Cleaner</b>   | The Honeywell F100 Whole-House Media Air Cleaner is up to 85% more effective and 85% more efficient at capturing airborne particles compared to a standard one-inch filter. It captures both microscopic particles like dust and smoke in addition to larger contaminants such as mold spores and pet dander. Works with all forced air and electronic forced air furnaces and air conditioning systems. Recommended as a Minimum Indoor Air Quality Accessory.  | \$ Intentionally Blank |
| <br><b>Cold Plasma Generator Air Purifier</b> | The Phenomenal Aire™ R-Series Cold Plasma Generator uses needlepoint bipolar ionization technology to effectively reduce dust, pollen, mold, and other allergy triggers. It also removes unpleasant odors from cooking fumes to wet dogs, without producing any detectable levels of ozone or other harmful by-products. Plus there is the low operational cost, little to no maintenance, and no expensive replacement parts. Just better air quality.  | \$ Intentionally Blank |
| <br><b>Air Scrubber Air Purifier</b>         | Air Scrubber Plus® is a revolutionary system designed to help eliminate indoor air quality risks by reducing air pollutants, chemical odors, cigarette smoke, dust, pollen, mold, odor-causing bacteria and odors caused by pets and cooking. With ActivePure™ technology it cleans, freshens and purifies the air using specialized germicidal UV light waves along with a proprietary catalytic process that creates enviroscrubbing molecules of oxygen and hydrogen, just like nature's outdoor scrubbers. | \$ Intentionally Blank |
| <br><b>Fan Powered Humidifier</b>            | Carrier's Performance™ Fan-Powered Humidifier keeps your home comfortable all year. It blows moisture vapor directly into your ducts. This home humidifier was engineered to work with Carrier ducts for improved whole house comfort. Avoid static electricity shocks and enjoy optimum humidity levels year-round.   | \$ Intentionally Blank |
|   |  |                        |

### Calculations based on:

- 18,000 BTUH Cooling Unit
- \$0.120 Electric Rate per KW
- 2,700 Annual Cooling Load Hours

**\*Note:** Savings can vary widely due to unique installation and environmental conditions. As equipment deteriorates, so will the SEER rating.

### Calculations based on:

- 60,000 BTUH Heating & Cooling Unit
- \$0.120 Electric Rate per KWH
- 900 Annual Heating Load Hours
- 2,700 Annual Cooling Load Hours

**\*Note:** Savings can vary widely due to unique installation and environmental conditions. As equipment deteriorates, so will the SEER rating.
